Executive Summary

The University of New Hampshire Survey Center included nine questions on its September 2020 Granite State Poll for the Commission to Study School Funding to better understand public sentiment regarding public education in New Hampshire. One thousand and thirty (1,030) Granite State Panel members completed the survey online between September 24 and September 28, 2020.

The following figures display survey results, detailed tabular results may be found in Appendix A, Appendix B contains open-ended responses, and Appendix C contains the survey instrument. Due to rounding, percentages may not add to 100%.

Key Findings

Parent or Guardian of K-12 NH Student

Just under one in five respondents are currently a parent or guardian of a student enrolled in a K-12 public school. Respondents aged 35 to 49, self-described conservatives, self-identified Republicans, and Central/Lakes Region residents are more likely to be parents or guardians of a K-12 public school student.

Cost of Public Education

Most New Hampshire residents underestimate how much New Hampshire school districts spend per student; respondents on average estimate that school districts spend just over \$9,500 per student annually while in reality districts spend on average around \$19,000 per student annually.

Residents are far more accurate in estimating the percentage of public education costs they believe are funded by the state government; respondents on average estimate that 33% of costs are funded by the state while in reality approximately 31% is funded by the state.

A slim majority of New Hampshire residents think that the New Hampshire state government should increase its funding of local public education; just over a quarter say state funding should remain about the same, and very few say that state funding should be decreased.

Sources of Education Funding

A slight plurality of New Hampshire residents say they are in favor of changing tax policy in the state so that everyone pays the same property tax rate to fund public schools in the state. Nearly half of residents say that the percentage of public education costs funded by local property taxes should decrease, while most of the remaining respondents say it should stay about the same.

Despite this stated desire to reduce the reliance on property taxes to fund public education, residents are quite opposed to a statewide property tax, a sales tax, or an income tax as a means to reduce the role local property taxes play in funding local education. The most popular of these three options, a statewide property tax, is supported by less than one-quarter of respondents. Self-identified Republicans and self-described conservatives are particularly opposed to such changes, while self-identified Democrats are more likely than others to favor all three potential changes.

Most Important Factors to High-Quality Public Education

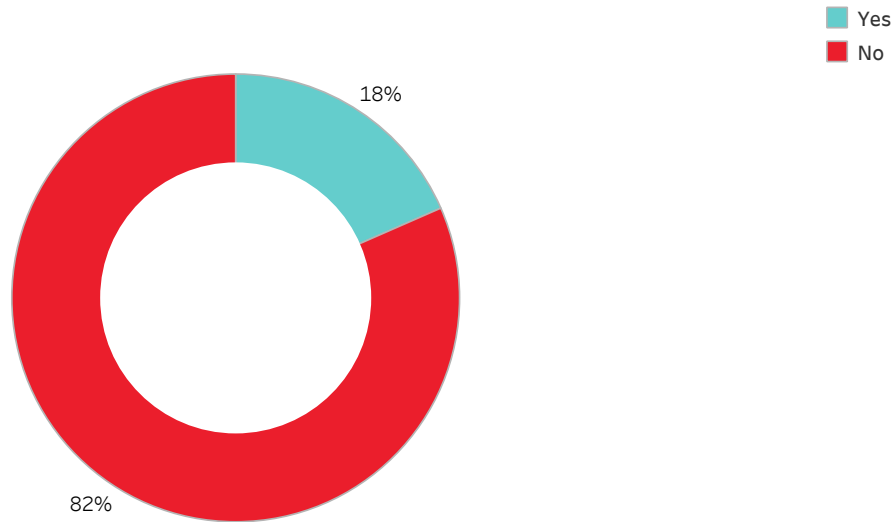

One-third of Granite Staters believe that teacher quality is the most important factor in providing New Hampshire students with a high-quality public education, with smaller numbers citing career and technical education services, higher teacher salaries, and smaller class sizes. When asked for the five most important factors, respondents again most often mention teacher quality and career and technical education services, along with low-income student services, student and school access to technology, and access to up-to-date curriculum and learning materials.

Self-identified Republicans are more likely to emphasize career and technical services, teacher quality, and access to technology, while Democrats are more likely to emphasize higher teacher salaries, early childhood education, and social, emotional, mental, and behavioral services. Parents and guardians of K-12 public school students are more likely than those who are not a parent or guardian to emphasize career and technical services and social, emotional, mental, and behavioral services.

Parent or Guardian of K-12 NH Student

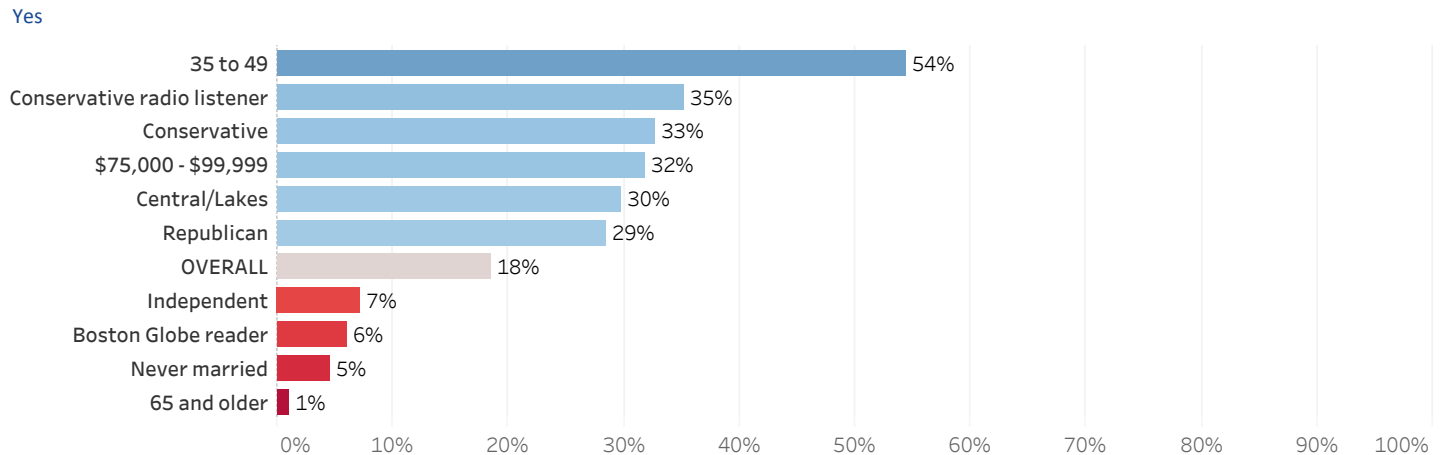

Eighteen percent of respondents say that they are currently a parent or guardian of a student enrolled in a K-12 public school in New Hampshire while 82% are not.

Figure 1a: Are you a parent or guardian of a student enrolled in a K-12 public school in New Hampshire?

- Respondents between the ages of 35 and 49, conservative radio listeners, self-described conservatives, those with a household income between \$75,000 and \$99,999, Central/Lakes Region residents, and self-identified Republicans are more likely than others to say that they are currently a parent or guardian of a student enrolled in a K-12 public school in New Hampshire. Those aged 65 and older, those who have never been married, *Boston Globe* readers, and self-identified Independents are less likely to say that they are the parent or guardian of a K-12 student in the state.

Figure 1b: Parent or guardian of K-12 student in NH - By Demographics

Cost of Public Education

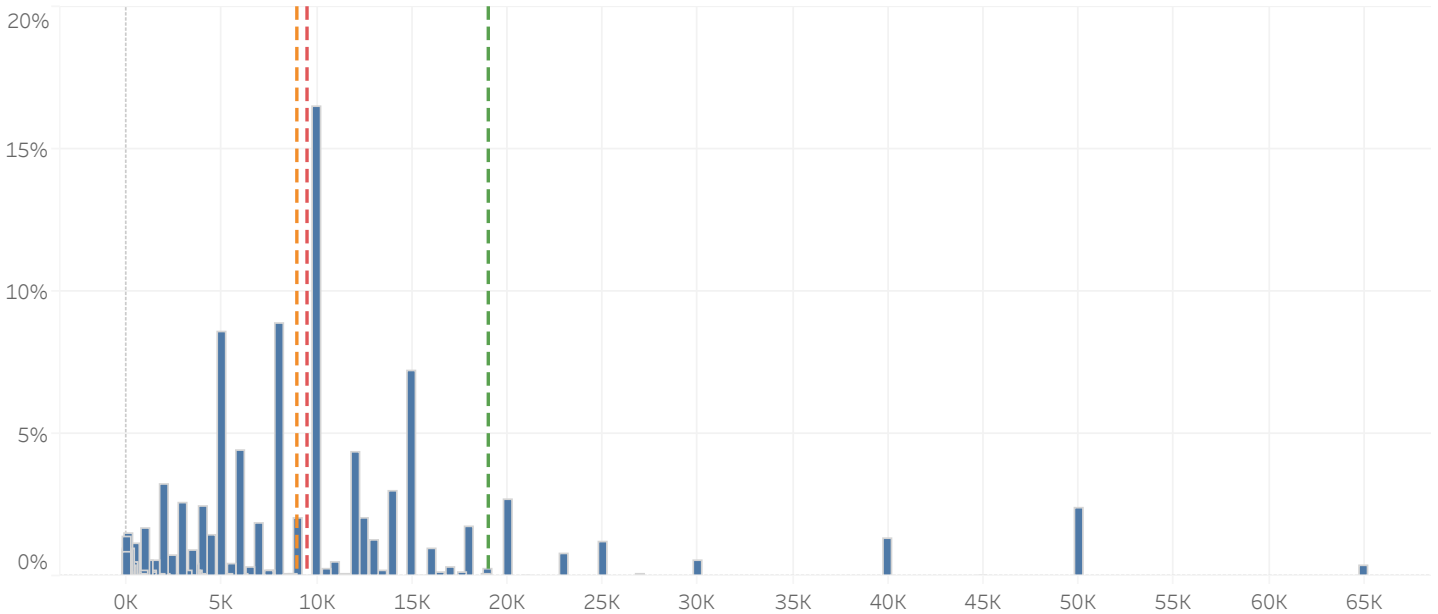

Respondents were asked to estimate how much on average New Hampshire school districts spend per student annually. Respondents on average estimate that New Hampshire school districts spend \$9,526 per student, while the median estimate is \$9,000. Both of these figures are considerably lower than the correct answer, approximately \$19,000. Overall, 88% of respondents underestimate how much money is spent per student annually, less than 1% gave the correct answer, 9% believe the state spends more per student than they actually do, and 3% don't know or are unsure.

Figure 2a: How much on average do you think New Hampshire school districts spend per student?

Orange line = Median

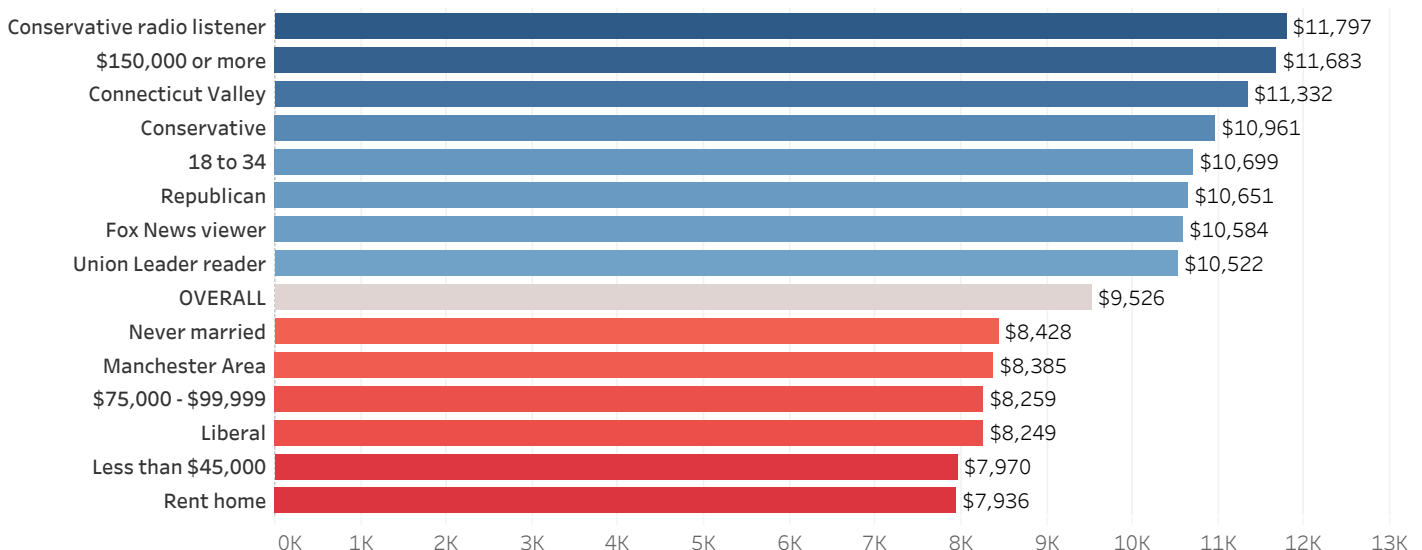

Red line = Mean

Green line = Correct answer

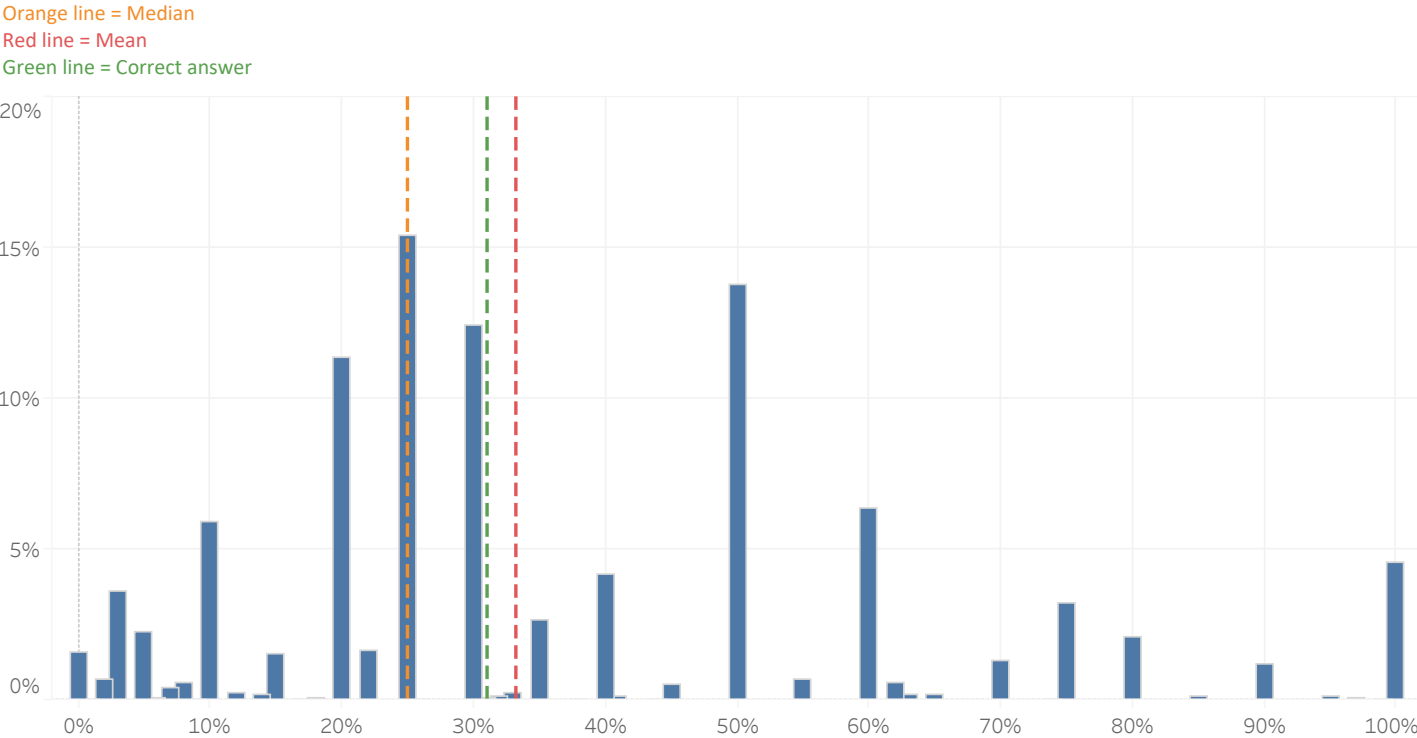

- Conservative radio listeners, those with a household income of \$150,000 or more, Connecticut Valley residents, self-described conservatives, those between the ages of 18 and 34, self-identified Republicans, Fox News viewers, and *Union Leader* readers give higher estimates than others concerning the amount the state spends per student. Those who rent their home, those with a household income below \$45,000 or between \$75,000 and \$99,999, self-described liberals, Manchester Area residents, and those who have never been married give lower estimates than others of how much is spent per student.

Figure 2b: Estimated amount spent by NH school districts per student - By Demographics

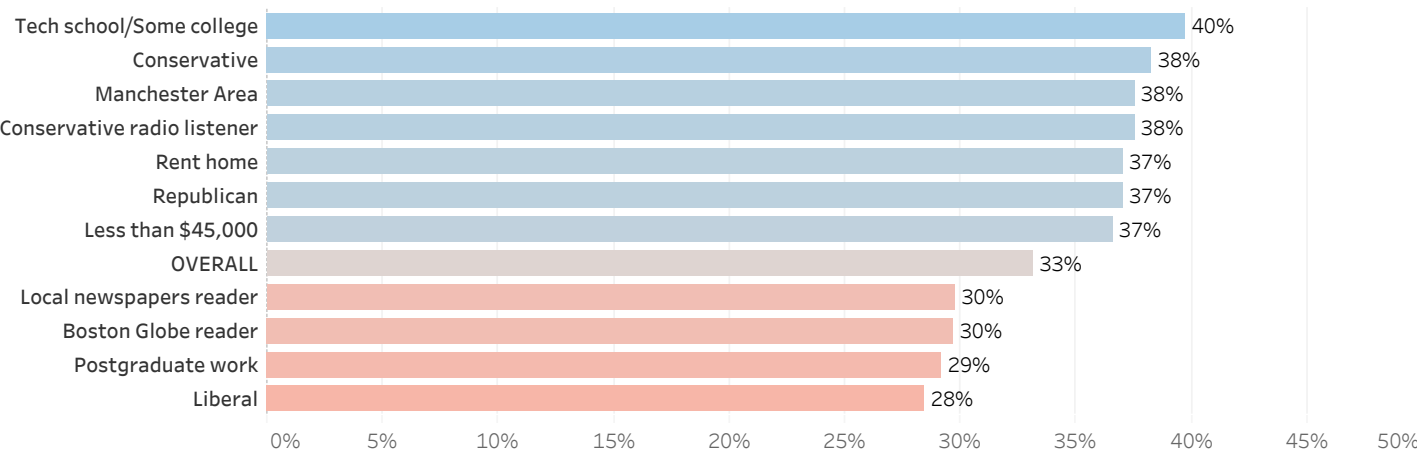

Respondents were also asked to estimate what percentage of public education costs they believe are currently funded by the state government. Respondents on average estimate that 33% of public education costs are funded by the state government, while the median estimate is 25%. These figures are not far off from reality; the state government currently funds approximately 31% of public education costs. Overall, 57% of respondents underestimate the percentage of public education costs paid for by the state government, less than 1% gave the correct answer, 42% believe the state pays for a greater percentage than they actually do, and 1% don't know or are unsure.

Figure 3a: And what percentage of public education costs do you think are currently funded by the state government?

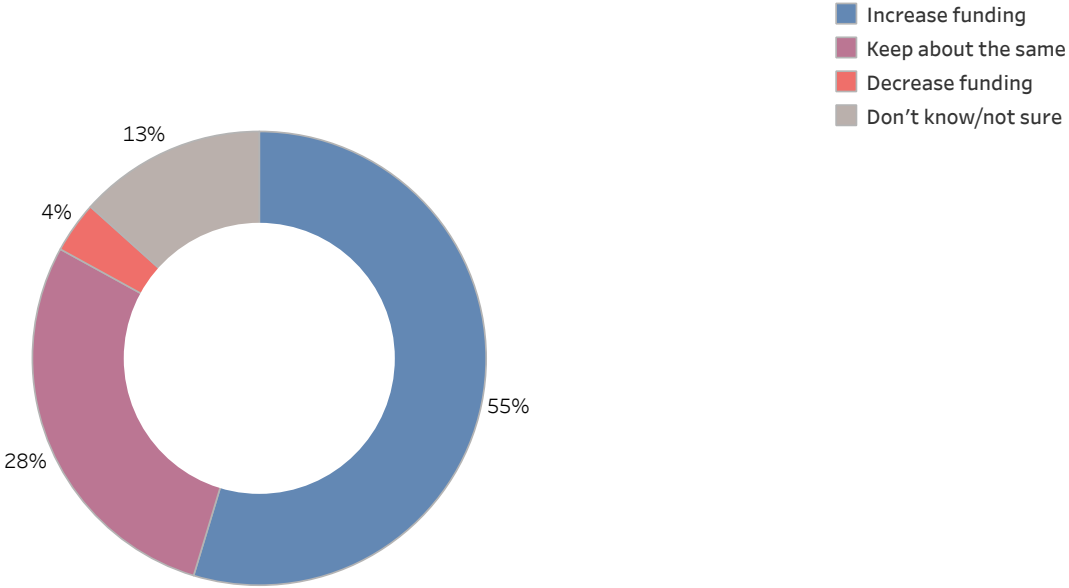

- Respondents who attended technical school or have some college education, self-described conservatives, Manchester Area residents, conservative radio listeners, those who rent their home, self-identified Republicans, and those with a household income below \$45,000 give higher estimates than others concerning the percentage of public education costs paid by the state government. Self-described liberals, those who have completed postgraduate work, *Boston Globe* readers, and local newspaper readers give lower estimates than others of the percentage of public education costs paid for by the state government.

Figure 3b: Percentage of public education costs believe currently funded by state government - Mean - By Demographics

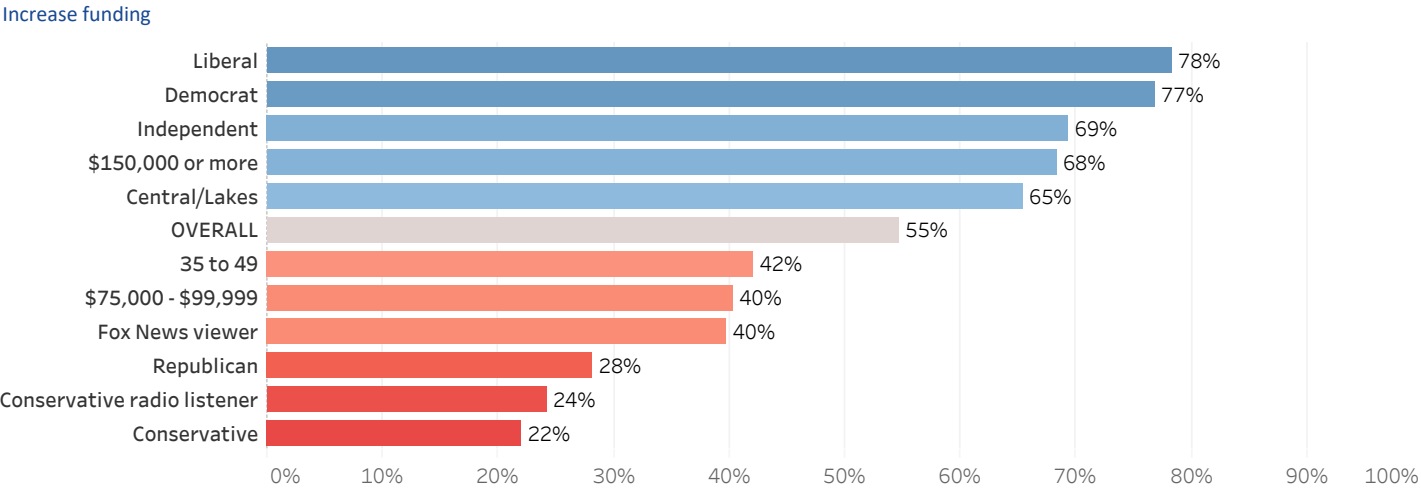

More than half (55%) of respondents think that the state government should increase its funding to support local public education, 28% think the state should keep its funding about the same, 4% think the state should decrease its funding, and 13% don't know or are unsure.

Figure 4a: On average, New Hampshire school districts spend approximately \$19,000 per student each year and the state government pays for approximately 31% (approximately \$6,000 per student) of local public education costs while the rest is covered by local property taxes. In your opinion, do you think that the state government should increase its funding to support local public education, decrease its funding, or keep it about the same?

- Self-described liberals, self-identified Democrats and Independents, those with a household income of \$150,000 or more, and Central/Lakes Region residents are more likely than others to say that the state government should increase its funding to support local education. Self-described conservatives, conservative radio listeners, self-identified Republicans, Fox News viewers, those with a household income between \$75,000 and \$99,999, and those aged 35 to 49 are less likely to say the state should increase its funding.

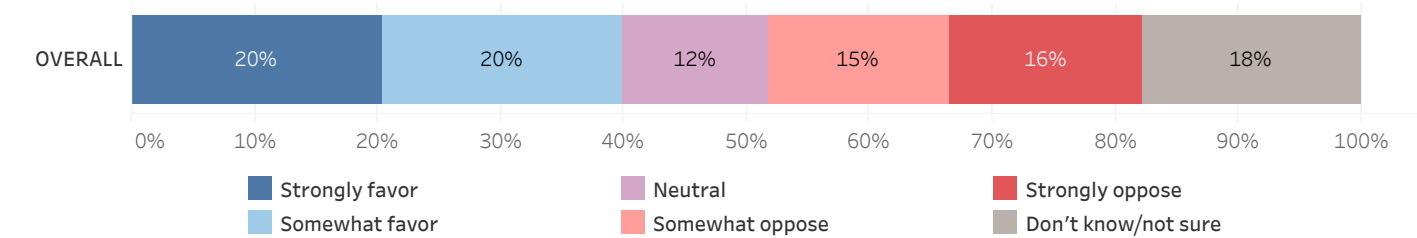

Figure 4b: Should state government increase, decrease, or keep about the same its funding to support local public education - By Demographics

Sources of Education Funding

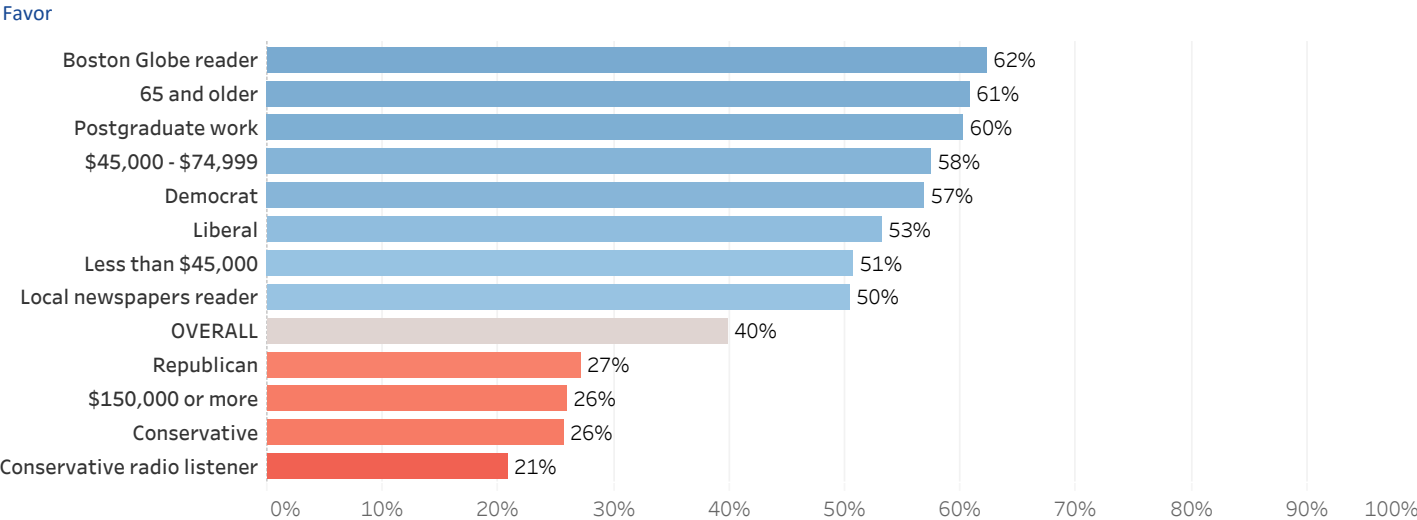

Four in ten (40%) New Hampshire residents would strongly (20%) or somewhat (20%) favor changing current policy so that everyone pays the same property tax rate to fund public schools in New Hampshire. Three in ten (30%) would strongly (16%) or somewhat (15%) oppose this change, 12% are neutral, and 18% don't know or are unsure.

Figure 5a: In some communities, taxpayers pay less than \$3 per \$1,000 of property value in combined local and statewide property tax to pay for their local schools, while in other communities, taxpayers pay as much as \$24 per \$1,000 in education property tax. Would you favor or oppose changing this so that everyone pays the same property tax rate to fund public schools in New Hampshire?

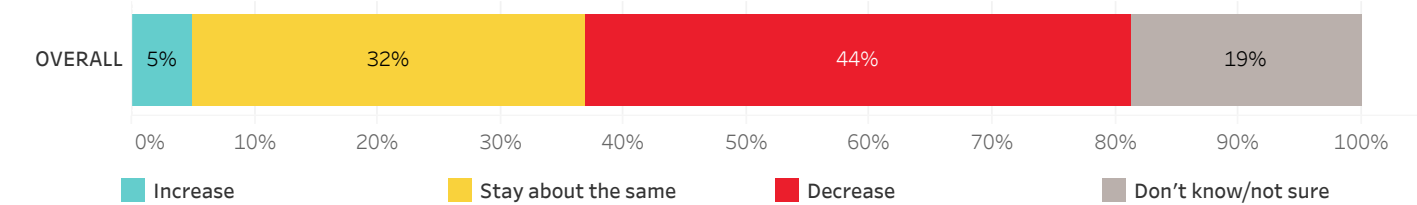

- Boston Globe* readers, those aged 65 and older, those who have completed postgraduate work, those with a household income below \$75,000, self-identified Democrats, self-described liberals, and local newspaper readers are more likely than others to favor changing current policy so that everyone pays the same property tax rate to fund public schools in New Hampshire. Conservative radio listeners, self-described conservatives, those with a household income of \$150,000 or more, and self-identified Republicans are less likely to support such a change.

Figure 5b: Favor or oppose change so everyone pays the same property tax rate to fund public schools in NH - By Demographics

Only 5% of New Hampshire residents believe that the percentage of public education costs funded by local property taxes should increase, one-third (32%) think it should stay about the same, 44% think the percentage funded by local property taxes should decrease, and 19% don't know or are unsure.

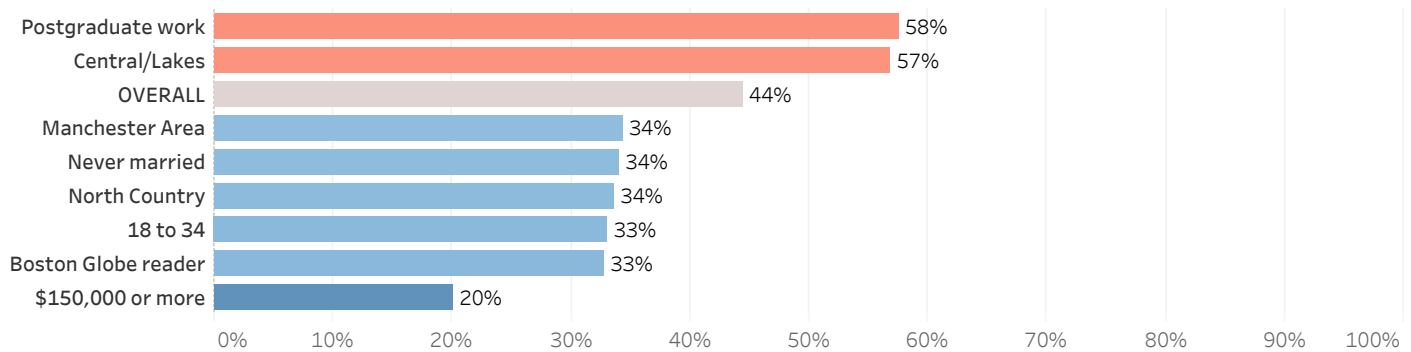

Figure 6a: Currently, New Hampshire communities fund over 65% of total public education costs with local property taxes. Should the percentage of public education costs funded by local property taxes increase, decrease, or stay about the same?

- Respondents who have completed postgraduate work and Central/Lakes Region residents are more likely than others to say that the percentage of public education costs funded by local property taxes should decrease. Those with a household income of \$150,000 or more, *Boston Globe* readers, those aged 18 to 34, North Country and Manchester Area residents, and those who have never been married are less likely to say that the percentage funded by local property taxes should decrease.

Figure 6b: Should percentage of public education costs funded by local property taxes increase, decrease, or stay about the same - By Demographics

Decrease

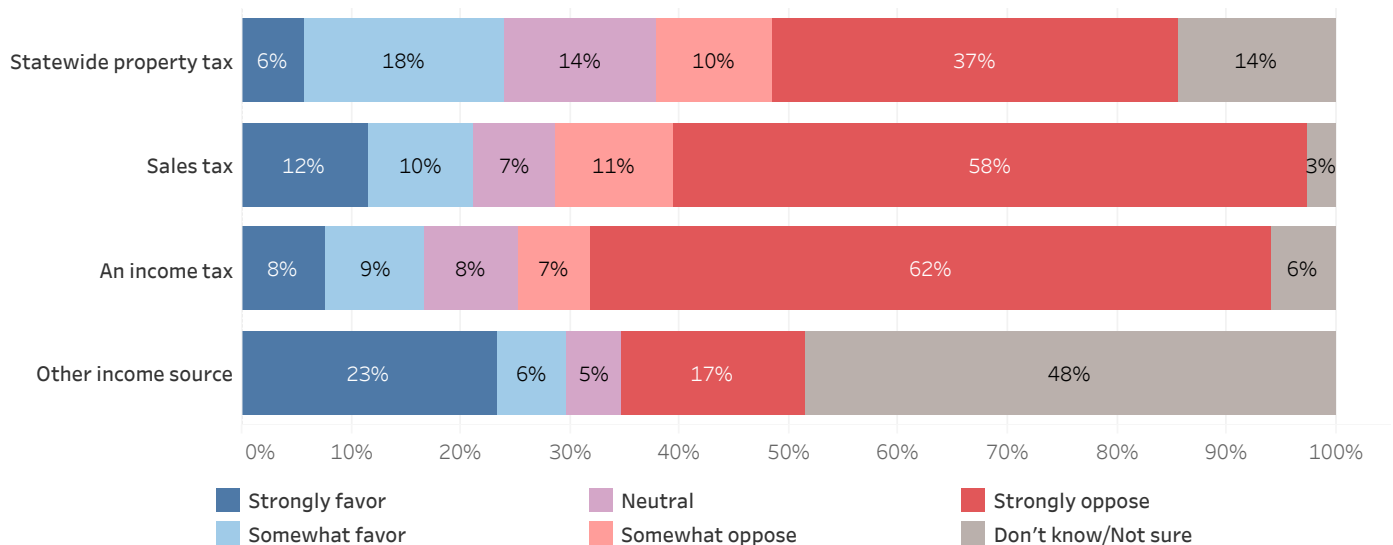

Despite a plurality (44%) of respondents indicating that they would like the percentage of public education costs funded by local property taxes to decrease, New Hampshire residents are largely opposed to using each of the following potential alternative funding sources to decrease reliance on local property taxes. Only 24% of respondents strongly (6%) or somewhat (18%) favor using a statewide property tax to decrease reliance on local property taxes while 47% are strongly (37%) or somewhat (10%) opposed, 14% are neutral, and 14% don't know or are unsure.

A potential sales tax to decrease reliance on property taxes is slightly less popular - Only 21% strongly (12%) or somewhat (10%) favor this while 69% are strongly (58%) or somewhat (11%) opposed, 7% are neutral, and 3% don't know or are unsure.

An income tax is even less popular among New Hampshire residents - only 17% strongly (8%) or somewhat (9%) favor this while 69% are strongly (62%) or somewhat (7%) opposed, 8% are neutral, and 6% don't know or are unsure.

Respondents who volunteered additional sources of income that could be used to decrease reliance on local property taxes most frequently mentioned taxes on businesses, gas taxes, taxing marijuana, taxing the wealthy, or cutting spending elsewhere in the budget.

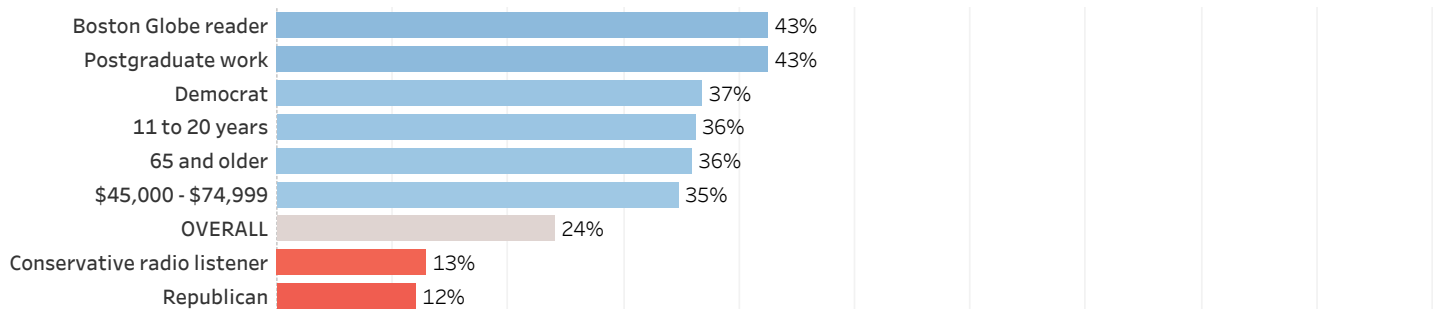

Figure 7a: Would you favor or oppose using the following options to decrease reliance on local property taxes to fund education in New Hampshire?

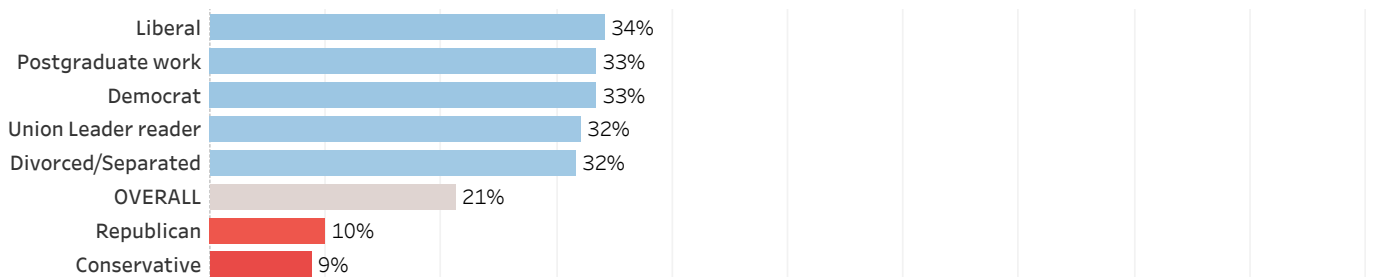

- *Boston Globe* readers, those who have completed postgraduate work, self-identified Democrats, those who have lived in New Hampshire for 11 to 20 years, those aged 65 and older, and those with a household income between \$45,000 and \$74,999 are more likely than others to favor a statewide property tax as a way to decrease reliance on local property taxes. Self-identified Republicans and conservative radio listeners are less likely to be in favor of this.
- Self-described liberals, those who have completed postgraduate work, self-identified Democrats, *Union Leader* readers, and those who are divorced or separated are more likely than others to favor a sales tax as a way to decrease reliance on local property taxes. Self-described conservatives and self-identified Republicans are less likely to be in favor of this.
- Self-described liberals, self-identified Democrats, local newspaper readers, those who have completed postgraduate work, and *Boston Globe* readers are more likely than others to favor an income tax as a way to decrease reliance on local property taxes. Self-described conservatives, conservative radio listeners, and self-identified Republicans are less likely to be in favor of this.

Figure 7b: Favor option to decrease reliance on local property taxes - By Demographics

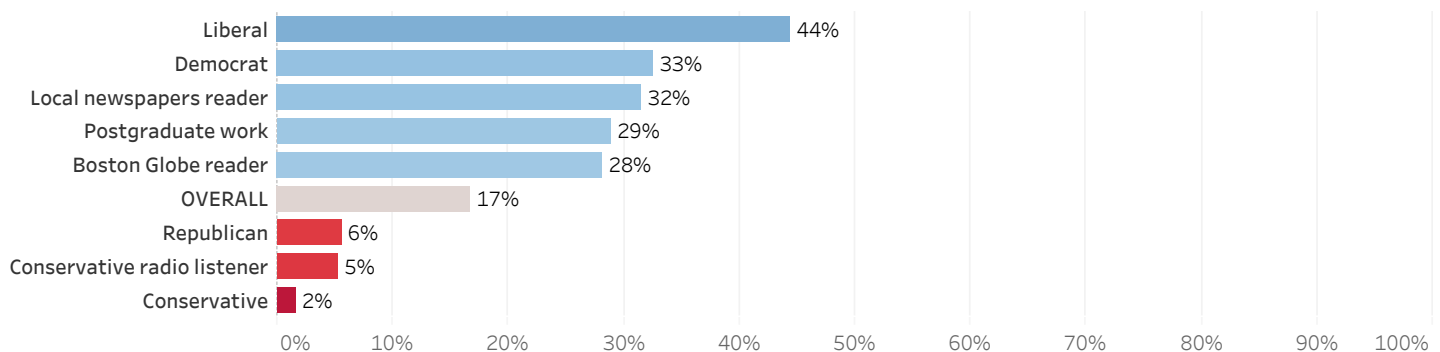

Statewide property tax

Sales tax

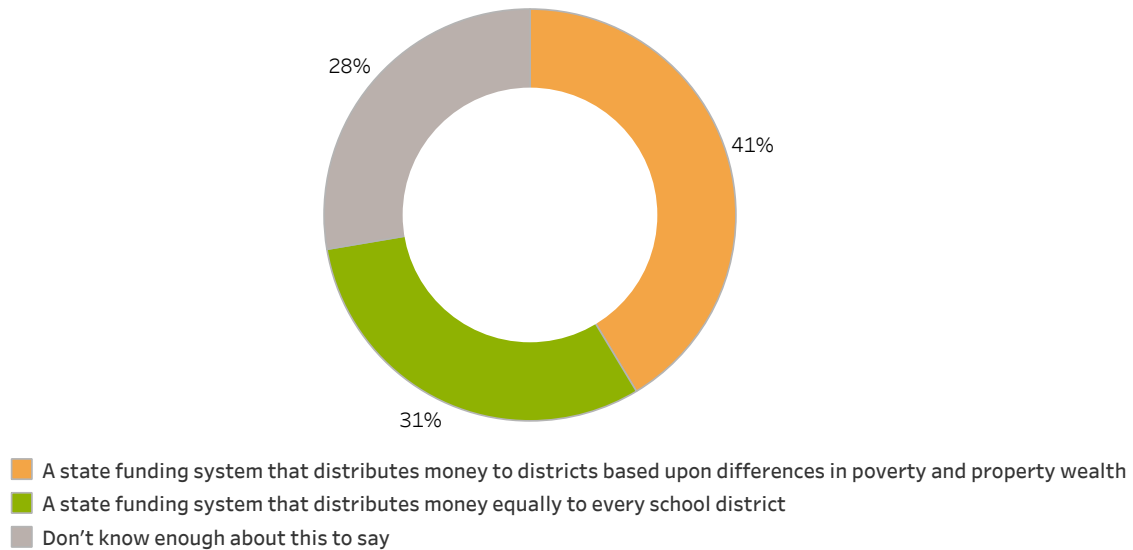

An income tax

When asked which comes closest to their opinion on what New Hampshire should have for a school funding system, 41% of New Hampshire residents believe it should be a state funding system that distributes money to districts based upon differences in poverty and property wealth while 31% believe it should be a state funding system that distributes money equally to every school district. Twenty-eight percent of respondents say they don't know enough about this to say.

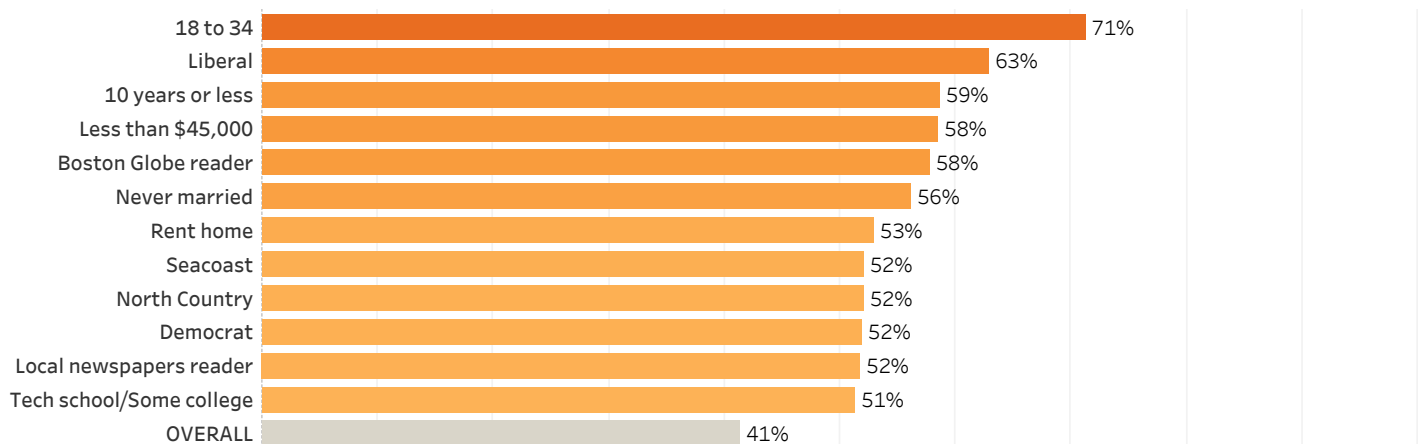

Figure 8a: Which of these comes closest to your opinion on what New Hampshire should have for a school funding system?

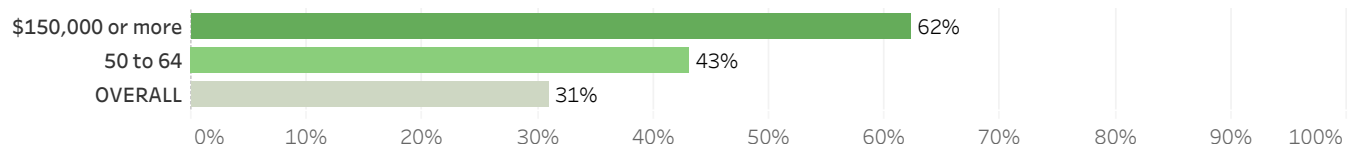

- Respondents aged 18 to 34, self-described liberals, those who have lived in New Hampshire for 10 years or less, those with a household income below \$45,000, *Boston Globe* readers, those who have never been married, those who rent their home, Seacoast and North Country residents, self-identified Democrats, local newspaper readers, and those who attended technical school or have some college education are more likely than others to believe New Hampshire should have a school funding system that distributes money equally to districts based upon differences in poverty and property wealth.
- Respondents with a household income of \$150,000 or more and those aged 50 to 64 are more likely than others to believe New Hampshire should have a school funding system that distributes money equally to every school district.

Figure 8b: Comes closest to your opinion on what NH should have for a school funding system - By Demographics

Most Important Factors to High-Quality Public Education

One-third (33%) of New Hampshire residents believe that teacher quality is the most important factor in providing New Hampshire students with a high-quality public education while 15% believe career and technical services is most important. Fewer respondents believe that higher teacher salaries (8%), smaller class sizes (8%), access to up-to-date curriculum and learning materials (6%), or low-income student services (6%) is most important while 5% or less believe that social, emotional, mental, and behavioral resources (5%), public early childhood education (5%), student and school access to technology (3%), well-maintained and up-to-date classrooms and buildings (3%), special educational services (1%), English language learner services (<1%) or something else (4%) is most important to providing New Hampshire students a high-quality public education.

Figure 9a: In your opinion, which of the following do you think is most important in order to provide New Hampshire students a high-quality public education?

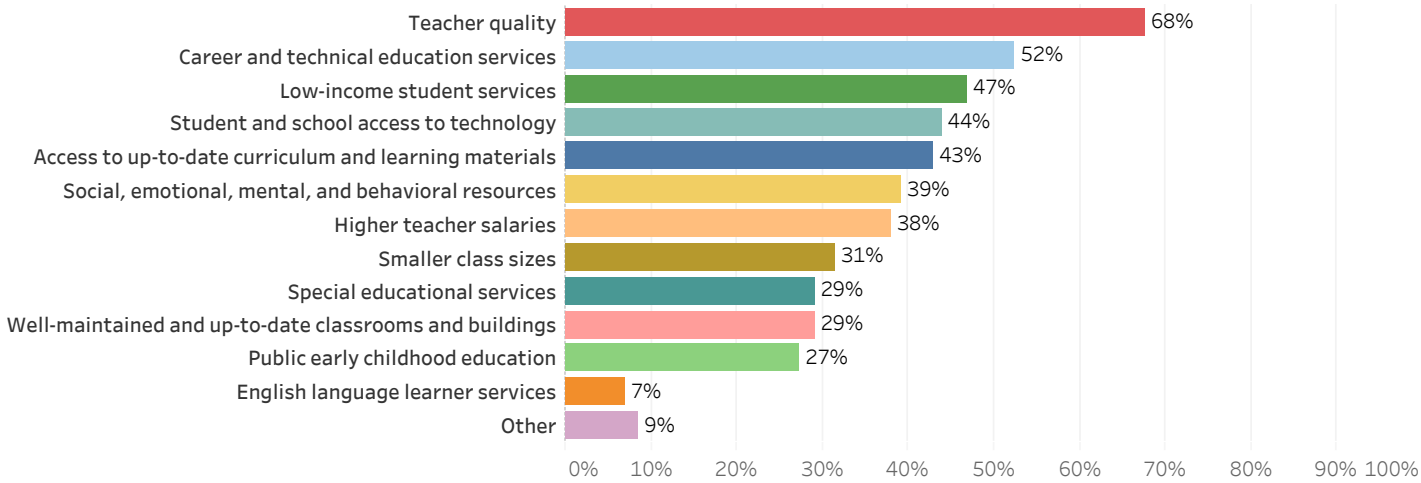

Most important

More than two-thirds (68%) of New Hampshire residents believe that teacher quality is among the five most important factors in providing New Hampshire students with a high-quality public education, while fewer respondents say the same about career and technical education services (52%), low-income student services (47%), student and school access to technology (44%), access to up-to-date curriculum and learning materials (43%), social, emotional, mental, and behavioral resources (39%), and higher teacher salaries (38%). Less than one-third believe that smaller class sizes (31%), special educational services (29%), well-maintained and up-to-date classrooms and buildings (29%), and public early childhood education (27%) are among the five most important factors, while only 7% say the same about English language learner services and 9% say the same about something else.

Figure 9b: In your opinion, which of the following do you think is most important in order to provide New Hampshire students a high-quality public education?

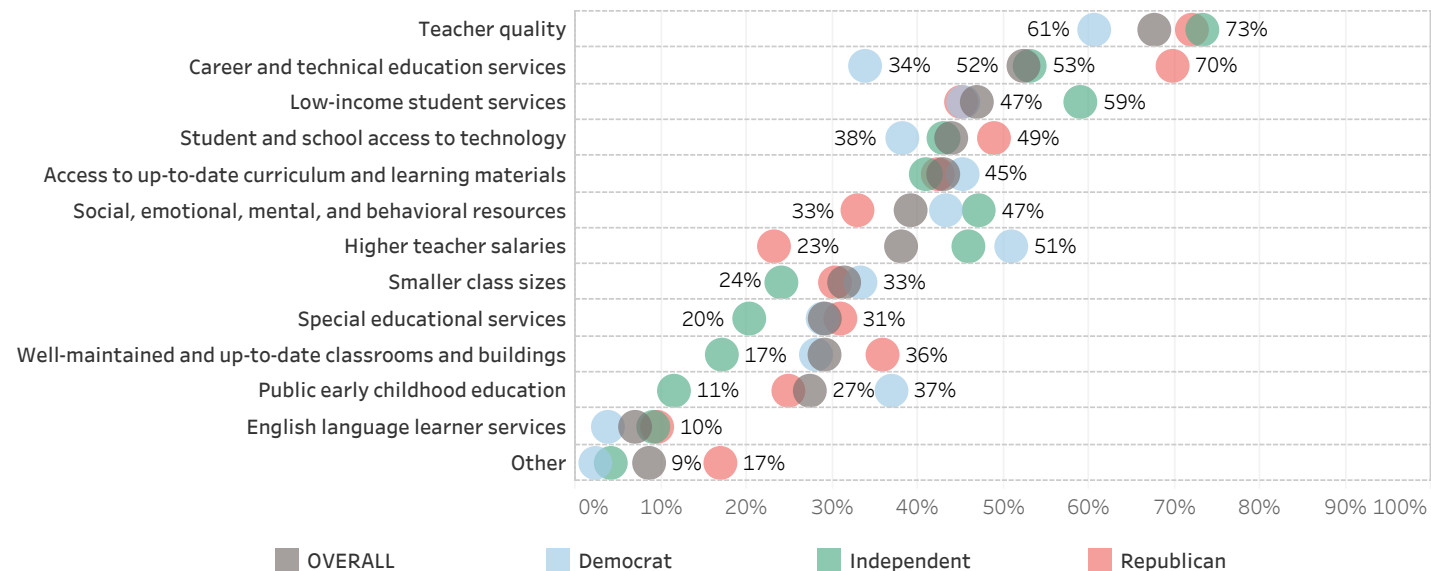

1st, 2nd, 3rd, 4th, or 5th most important

Democrats are a good deal more likely than Republicans to believe that higher teacher salaries is among the five most important factors in providing New Hampshire students with a high-quality public education and Democrats are slightly more likely than Republicans to say the same about public early childhood education and social, emotional, mental, and behavioral resources. By contrast, Republicans are good deal more likely than Democrats to believe that career and technical education services is among the five most important factors and are somewhat more likely to say that teacher quality and student and school access to technology is among the five most important factors. For the remaining six factors, there are no significant partisan differences in how important they are perceived to be in providing a high-quality education.

Figure 9c: In your opinion, which of the following do you think is most important in order to provide New Hampshire students a high-quality public education? - By party identification

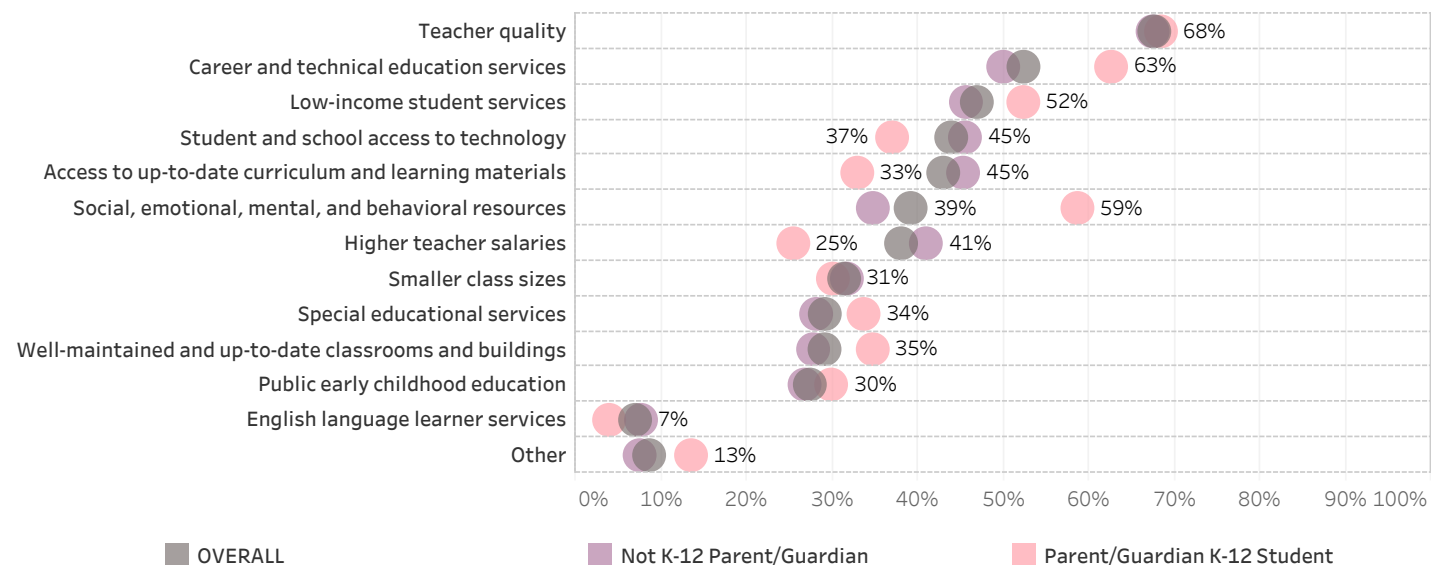

1st, 2nd, 3rd, 4th, or 5th most important

Parents and guardians of K-12 public school students are more likely than those who are not a parent or guardian of a K-12 student to believe that social, emotional, mental, and behavioral resources and career and technical educational services are among the five most important factors in providing New Hampshire students with a high-quality public education. By contrast, those who are not a parent or guardian are more likely to say that access to up-to-date curriculum and learning materials and higher teacher salaries are among the five most important factors.

Figure 9d: In your opinion, which of the following do you think is most important in order to provide New Hampshire students a high-quality public education? - By parent or guardian of K-12 public school student

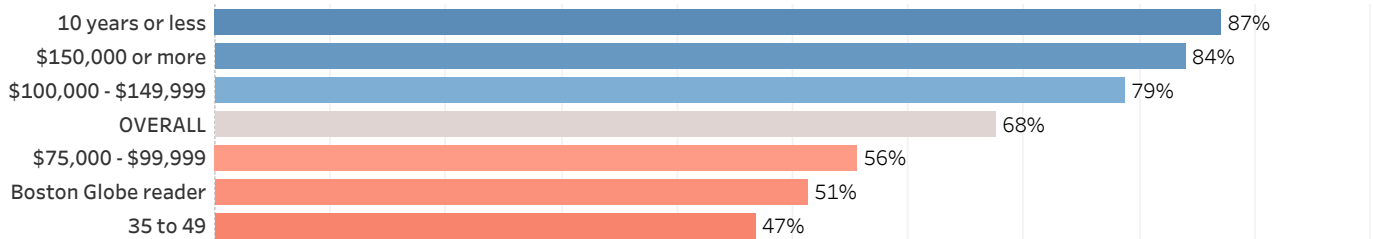

1st, 2nd, 3rd, 4th, or 5th most important

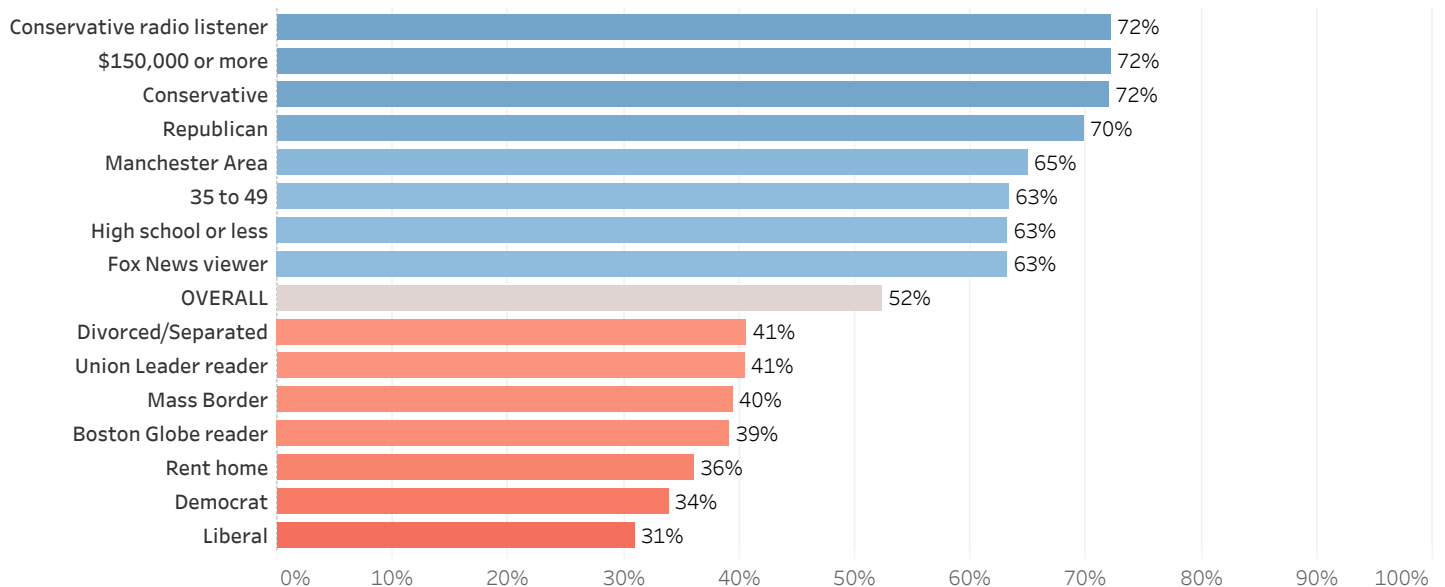

- Respondents who have lived in New Hampshire for 10 years or less and those with a household income of \$100,000 or more are more likely than others to say that teacher quality is among the five most important factors to providing a high-quality public education. Those aged 35 to 49, *Boston Globe* readers, and those with a household income between \$75,000 and \$99,999 are less likely to say so.
- Conservative radio listeners, those with a household income of \$150,000 or more, self-described conservatives, self-identified Republicans, Manchester Area residents, those aged 35 to 49, those with a high school education or less, and Fox News viewers are more likely than others to say that career and technical educational services is among the five most important factors to providing a high-quality public education. Self-described liberals, self-identified Democrats, those who rent their home, *Boston Globe* readers, Massachusetts Border residents, *Union Leader* readers, and those who are divorced or separated are less likely to say so.

Technical Report

How the Sample Was Selected

The September 2020 Granite State Poll survey was a web-based survey of Granite State Panel members who are recruited from randomly-selected landline and cell phone numbers across New Hampshire. The Granite State Panel is part of an effort by the University of New Hampshire Survey Center to investigate new ways of gathering and understanding the opinion of New Hampshire residents. Respondents to the Granite State Poll were asked if they wished to participate in further research and asked to provide an email address. Those who agreed and provided an email address were added to the panel. Panel members were also recruited by texting a random sample of cellular telephones in the state and inviting the recipient to take a short survey. At the conclusion of the survey, recipients were asked if they would like to join the panel and provide an email address. Respondents under the age of 18, non-New Hampshire residents, and seasonal residents who are not registered to vote in New Hampshire were excluded from this survey and did not receive an invitation to join the panel. For each survey which they complete, panel members are entered into quarterly drawings to earn rewards, such as gift certificates from statewide and internet companies.

When Data Was Collected

An invitation email was sent to Granite State Panel members on September 24th, 2020. Two email reminders were sent to non-responders and the survey was completely closed on the morning of September 28th. One thousand and thirty (1,030) Granite State Panel members completed the survey. The response rate for the September Granite State Poll is 37%.

Weighting of Data

Data were weighted by respondent sex, age, education, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau, as well as party registration levels provided by the New Hampshire Secretary of State and to 2016 election results in New Hampshire. In addition to potential sampling error, all surveys have other potential sources of non-sampling error including question order effects, question wording effects, and non-response. Due to rounding, percentages may not sum to 100%. The number of respondents in each demographic below may not equal the number reported in cross-tabulation tables as some respondents choose not to answer some questions.

Sampling Error

The Granite State Poll, like all surveys, is subject to sampling error due to the fact that all residents in the area were not interviewed. For those questions asked of five hundred (500) or so respondents, the error is $\pm 4.4\%$. For those questions where fewer than 500 persons responded, the sampling error can be calculated as follows:

$$\text{Sampling Error} = \pm 1.96 \sqrt{\frac{P(1 - P)}{N}}$$

Where P is the percentage of responses in the answer category being evaluated and N is the total number of persons answering the particular question.

For example, suppose you had the following distribution of answers to the question, "Should the state spend more money on road repair even if that means higher taxes?" Assume 1,000 respondents answered the question as follows:

YES	47%
NO	48%
DON'T KNOW	5%

The sampling error for the "YES" percentage of 47% would be

$$\pm 1.96 \sqrt{\frac{47(53)}{1000}} = \pm 3.1\%$$

for the "NO" percentage of 48% it would be

$$\pm 1.96 \sqrt{\frac{48(52)}{1000}} = \pm 3.1\%$$

and for the "DON'T KNOW" percentage of 5% it would be

$$\pm 1.96 \sqrt{\frac{5(95)}{1000}} = \pm 1.4\%$$

In this case we would expect the true population figures to be within the following ranges:

YES	43.9% - 50.1% (i.e., 47% \pm 3.1%)
NO	44.9% - 51.1% (i.e., 48% \pm 3.1%)
DON'T KNOW	3.6% - 6.4% (i.e., 5% \pm 1.4%)

The margin of sampling error for the September 2020 Granite State Panel survey is +/- 3.0 percent.

Design Effect

These MSE's have not been adjusted for design effect. The design effect for the survey is 2.5%. To learn more about the Granite State Panel, please visit our website <https://cola.unh.edu/unh-survey-center/projects/granite-state-panel>. For more information about the methodology used in the Granite State Poll, contact Dr. Andrew Smith at (603) 862-2226 or by email at andrew.smith@unh.edu.

ED3: On average, New Hampshire school districts spend approximately \$19,000 per student each year and the state government pays for approximately 31% (approximately \$6,000 per student) of local public education costs while the rest is covered by local property taxes. In your opinion, do you think that the state government should increase its funding to support local public education, decrease its funding, or keep it about the same?

		<u>Increase funding</u>	<u>Decrease funding</u>	<u>Keep about the same</u>	<u>Don't know/not sure</u>	<u>N</u>

- Value-added tax (if that's something states can even do)
- We have a prepared food and gas tax use that!!
- Wealth Tax
- Wealth tax for individuals who are in the highest 1% of holdings

ED6_4_TEXT: In your opinion, which of the following do you think is most important in order to provide New Hampshire students a high-quality public education? (Please rank your top 5, with "1" being the most important) (Other)

- A focus on academics and not progressive indoctrination
- Ability of parents to be involved in curriculum
- Abolish government "schools"
- abolish teacher unions and allow teachers to negotiate their own wages and benefits as individuals and not as a group collective
- All are important.
- apolitical atmosphere
- appropriate federal funding for mandates like special ed
- Biotechnology
- Charter schools
- Charter schools
- Charter Schools
- CHARTER SCHOOLS
- CIVICS
- Civics and balanced history
- Classes in Civics, Life skills, and the arts
- correct US history. Not phony revisionist history
- defund the Teachers Union
- Democratic schools
- education for non-college bound careers
- eliminating common core
- Fed. Gov. "Free Education"
- Focus on basics (3 R's)
- Focus on education of math and reading skills
- Get rid of teachers unions
- Gifted children programs
- I don't approve of government in education
- I don't know I don't have kids
- Instruct unbiased, FACTUAL History
- Involved parents
- Involved Parents
- Less homework for young children, more teacher instruction.
- Life skills such as budgeting
- Life skills, job hunting, home buying, banking etc.
- more focus on practical skills
- More physical resources for teachers
- Need to aid everyone in the school system including teacher salaries

- No union
- Non-partisan!!!
- parent involvement
- Pay decreases for teachers
- provide education only, no athletics
- Quality Education material
- reading, writing, arithmetic
- Real history
- Real history from 1776 to 2020
- Reduce admin/overhead
- reduced bureaucracy
- Safety
- school choice
- School choice
- School choice
- School choice
- School choice vouchers
- School vouchers to private schools
- Social extra curricular activities/sports
- STEM
- stop indoctrinating our children
- Teach Civics!!!!!!!!!!
- Teacher-led decision making
- The combination of factors is more nuanced than presented
- Unbiased curriculum
- Universal BROADBAND
- Year round classes
- Your categories are too vague...what do you mean by 'teacher quality'

Appendix C

2020 09 - Granite State Poll

You have been invited to participate in a study about politics and current events, sponsored by the University of New Hampshire. The use of human subjects in this project has been approved by the UNH Institutional Review Board (IRB) for the Protection of Human Subjects in Research.

The survey will take between 10 and 15 minutes to complete.

Participation is completely voluntary and refusal to participate will not affect you in any way.

You may refuse to answer any questions or stop at any time.

Your answers will be combined with the answers of approximately 1,500 residents across the state and used for research purposes only.

Data will be kept in secured files, available only to the researchers. We will make every effort to maintain the confidentiality of the data.

Research via the internet presents minimal risk of a breach of confidentiality. You are not anticipated to receive any direct benefits from participating in this research.

By clicking the "Yes, I'd like to participate" button below, you are indicating that you consent to participate in this study. If you prefer not to participate, please simply close this window in your browser.

If you have any questions about the survey, please contact Sean McKinley at the University of New Hampshire Survey Center, sean.mckinley@unh.edu or 603-862-2563.

If you have any questions about your rights as a research participant, you may contact Melissa McGee in UNH Research Integrity Services, melissa.mcgee@unh.edu or 603-862-2005 to discuss them.

Thank you for your participation!

Thank you for your interest in completing this survey, sponsored by the University of New Hampshire. This month, UNH is conducting a study of politics and current events.

Before we begin, do you live in New Hampshire all year round?

- ☐ Live in NH year round (1)
- ☐ Seasonal resident (2)
- ☐ Not a NH resident (3)

Skip To: AGE18 If INTRO = 1

Display This Question:

If INTRO = 2

Are you currently registered to vote in New Hampshire?

- ☐ Yes (1)
- ☐ No (2)
- ☐ Don't know/Not sure (3)

Display This Question:

If INTRO = 3

Or SEAS = 2

Or SEAS = 3

Thank you very much for your interest, but we are only surveying New Hampshire residents at this time.

Skip To: End of Survey If NOTELIG1 Is Displayed

Are you 18 years old or older?

- ☐ Yes (1)
- ☐ No (2)

Page Break

Display This Question:

If AGE18 = 2

Thank you very much for your interest, but we are only surveying adults 18 years old or older at this time.

Skip To: End of Survey If NOTELIG2 Is Displayed

Let's start with a question about the President.

Generally speaking, do you approve or disapprove of the way Donald Trump is handling his job as president?

- ☐ Approve (1)
- ☐ Disapprove (2)
- ☐ Neither, not sure, or don't know (3)

Display This Question:

If PRESAPP = 1

Would you say that you strongly approve of the way he is handling his job as President or that you approve only somewhat?

- ☐ Strongly approve (1)
- ☐ Somewhat approve (2)

Display This Question:

If PRESAPP = 2

Would you say that you strongly disapprove of the way he is handling his job as President or that you disapprove only somewhat?

- ☐ Strongly disapprove (1)
- ☐ Somewhat disapprove (2)

Display This Question:

If PRESAPP = 3

Would you say that you lean a little more toward approving or disapproving of the way he is handling his job as President?

- ☐ Lean toward approving (1)
- ☐ Lean toward disapproving (2)
- ☐ Neither, not sure, or don't know (3)

Generally speaking, do you approve or disapprove of the way President Trump is handling foreign affairs?

- ☐ Approve (1)
- ☐ Disapprove (2)
- ☐ Neither, not sure, or don't know (3)

Display This Question:

If FORAPP = 1

Would you say that you strongly approve of the way he is handling foreign affairs or that you approve only somewhat?

- ☐ Strongly approve (1)
- ☐ Somewhat approve (2)

Display This Question:

If FORAPP = 2

Would you say that you strongly disapprove of the way he is handling foreign affairs or that you disapprove only somewhat?

- ☐ Strongly disapprove (1)
 - ☐ Somewhat disapprove (2)
-

Display This Question:

If FORAPP = 3

Would you say that you lean a little more toward approving or disapproving of the way he is handling foreign affairs?

- ☐ Lean toward approving (1)

Turning to the November General election... how interested would you say you are in the 2020 General Election for President, Governor, and U.S. Senate?

- ☐ Extremely interested (1)
- ☐ Very interested (2)
- ☐ Somewhat interested (3)
- ☐ Not very interested (4)
- ☐ Don't know/Not sure (98)
-

How much attention would you say you are paying to the 2020 election?

- ☐ A lot (1)
- ☐ Some (2)
- ☐ A little (3)
- ☐ None (4)
- ☐ Don't know/Not sure (98)

Which of the following statements best describes you ...

- ☐ I will probably NOT vote in the November 2020 Election (1)
- ☐ I MAY vote in the 2020 election (2)
- ☐ Unless some emergency comes up, I WILL vote in the 2020 election (3)
- ☐ I will DEFINITELY vote in the 2020 election (4)
- ☐ I just don't know at this time (5)

If the presidential election was being held today, would you vote for....

- ☐ Donald Trump - Republican (1)
- ☐ Joe Biden - Democrat (2)
- ☐ Jo Jorgensen - Libertarian (6)
- ☐ Other (3) _____
- ☐ Will not vote (4)
- ☐ Don't know/undecided (5)

Display This Question:

If PRES1 = 5

Who would you say you are leaning towards voting for....

- ☐ Donald Trump - Republican (1)
- ☐ Joe Biden - Democrat (2)
- ☐ Jo Jorgensen - Libertarian (6)
- ☐ Other (3) _____
- ☐ Will not vote (4)
- ☐ Don't know/undecided (5)

Have you definitely decided who you will vote for in the election for President... are you leaning toward someone ... or have you considered some candidates but are still trying to decide?

- ☐ Definitely decided (1)
- ☐ Leaning towards someone (2)
- ☐ Still trying to decide (3)

Regardless of who you are voting for, which candidate do you think is most likely to win New Hampshire?

- ☐ Donald Trump - Republican (1)
- ☐ Joe Biden - Democrat (2)
- ☐ Jo Jorgensen - Libertarian (5)
- ☐ Other (3) _____
- ☐ Don't know/Not sure (4)

Regardless of who you are voting for, which candidate do you think is most likely to win the 2020 presidential election nationwide?

- ☐ Donald Trump - Republican (1)
- ☐ Joe Biden - Democrat (2)
- ☐ Jo Jorgensen - Libertarian (5)
- ☐ Other (3) _____
- ☐ Don't know/Not sure (4)

As you may know, the first presidential debate is scheduled to take place on Tuesday, September 29th. Which of the following best describes how you plan to interact with the debate?

- ☐ I plan to watch all of the debate (1)
- ☐ I plan to watch most of the debate (2)
- ☐ I don't plan to watch much of the debate, but plan to pay close attention to news stories about it afterwards (3)
- ☐ I don't plan to watch the debate or pay attention to news stories about it (4)
- ☐ Don't know/Not sure (5)

What **one word** comes to mind when you think of Donald Trump?

What **one word** comes to mind when you think of Joe Biden?

If the election for Governor was being held today, would you vote for....

- ☐ Chris Sununu - Republican (1)
- ☐ Dan Feltès - Democrat (2)
- ☐ Darryl Perry - Libertarian (6)

If PRES1 = 2

Do you support or oppose the following political reforms?

	Strongly support (5)	Somewhat support (4)	Neutral (3)	Somewhat oppose (2)	Strongly oppose (1)	Don't know/Not sure (98)
Adding more than nine Justices to the Court ("Court packing")	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Abolishing the filibuster in the Senate	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Abolishing the Electoral College	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Next are some questions about public education in New Hampshire.

Are you a parent or guardian of a student enrolled in a K-12 public school in New Hampshire?

- ☐ Yes (1)
- ☐ No (2)
-

How much on average do you think New Hampshire school districts spend per student? (Enter dollar amount)

And what percentage of public education costs do you think are currently funded by the state government? (Enter percentage)

On average, New Hampshire school districts spend approximately \$19,000 per student each year and the state government pays for approximately 31% (approximately \$6,000 per student) of local public education costs while the rest is covered by local property taxes. In your opinion, do you think that the state government should increase its funding to support local public education, decrease its funding, or keep it about the same?

- ☐ Increase funding (1)
 - ☐ Decrease funding (2)
 - ☐ Keep about the same (3)
 - ☐ Don't know/not sure (4)
-

In some communities, taxpayers pay less than \$3 per \$1,000 of property value in combined local and statewide property tax to pay for their local schools, while in other communities, taxpayers pay as much as \$24 per \$1,000 in education property tax. Would you favor or oppose changing this so that everyone pays the same property tax rate to fund public schools in New Hampshire?

- ☐ Strongly favor (1)
- ☐ Somewhat favor (2)
- ☐ Neutral (3)
- ☐ Somewhat oppose (4)
- ☐ Strongly oppose (5)
- ☐ Don't know/not sure (6)

Currently, New Hampshire communities fund over 65% of total public education costs with local property taxes. Should the percentage of public education costs funded by local property taxes increase, decrease, or stay about the same?

- ☐ Increase (1)
- ☐ Decrease (2)
- ☐ Stay about the same (3)
- ☐ Don't know/not sure (4)

Would you favor or oppose using the following options to decrease reliance on local property taxes to fund education in New Hampshire?

	Strongly favor (1)	Somewhat favor (2)	Neutral (3)	Somewhat oppose (4)	Strongly oppose (5)	Don't know/Not sure (6)
A statewide property tax	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
An income tax	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
A sales tax	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other (specify)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Which of these comes closest to your opinion on what New Hampshire should have for a school funding system?

- ☐ A state funding system that distributes money to districts based upon differences in poverty and property wealth (1)
- ☐ A state funding system that distributes money equally to every school district (2)
- ☐ Don't know enough about this to say (3)

In your opinion, which of the following do you think is most important in order to provide New Hampshire students a high-quality public education? (Please rank your top 5, with "1" being the most important)

- Higher teacher salaries (1)
- Teacher quality (2)
- Student and school access to technology (3)
- Smaller class sizes (4)
- Access to up-to-date curriculum and learning materials (5)
- Well-maintained and up-to-date classrooms and buildings (6)
- Social, emotional, mental and behavioral resources (7)
- Special education services (8)
- Public early childhood education (preschool, pre-k, kindergarten) (9)
- English language learner services (10)
- Career and technical education classes (11)
- Low-income student services (e.g., free and reduced breakfast and lunch) (12)
- Other (Please specify) (13)

Next we would like to ask you some questions about Lyme disease. What best describes your own personal risk of becoming infected with Lyme disease?

- ☐ High risk (1)
- ☐ Moderate risk (2)
- ☐ Low risk (3)
- ☐ No risk at all (4)
- ☐ I have Lyme Disease (5)
- ☐ Don't know/Not sure (6)

Thinking back to the last time you found a tick on your body, what method did you use to remove the tick?

- ☐ Removed the tick with fingers (1)
- ☐ Burned the tick with matches or a lighter (2)
- ☐ Twisted the tick out with tweezers (3)
- ☐ Pulled tick straight out with tweezers (4)
- ☐ Used a tick spoon/scooper device (5)
- ☐ Applied Vaseline or another substance (6)
- ☐ Other - Specify (7) _____
- ☐ Have never found a tick on my body (8)
- ☐ Don't know/Don't remember (9)

During the past year, when in wooded, grassy or brushy areas, how often did you check your body for ticks?

- ☐ Always (1)
- ☐ Sometimes (2)
- ☐ Never (3)
- ☐ Didn't spend time in wooded, grassy or brushy areas (4)
- ☐ Don't know/Not sure (5)

During the past year, when in wooded, grassy or brushy areas, how often did you apply insect repellent on your body or your clothes?

- ☐ Always (1)
- ☐ Sometimes (2)
- ☐ Never (3)
- ☐ Didn't spend time in wooded, grassy or brushy areas (4)
- ☐ Don't know/Not sure (5)

During the past year, before going into wooded, grassy or brushy areas, how often did you wear protective clothing such as long pants tucked into socks, sneakers, a long sleeve shirt, or light colored clothing?

- ☐ Always (1)
- ☐ Sometimes (2)
- ☐ Never (3)
- ☐ Didn't spend time in wooded, grassy or brushy areas (4)
- ☐ Don't know/Not sure (5)

Have you ever heard of Tick Free NH?

- ☐ Yes (1)
- ☐ No (2)
- ☐ Don't know/Not sure (3)

During the past 6 months, where have you seen Lyme disease prevention messaging? (Select all that apply)

- ☐ Television (1)
- ☐ Radio (2)
- ☐ Website (3)
- ☐ Social Media (4)
- ☐ Newspaper (5)
- ☐ Flyer (6)
- ☐ Other - Specify (7) _____
- ☐ ☒ I haven't seen any Lyme disease prevention messaging in the past 6 months (8)
- ☐ ☒ Don't know/not sure (9)

After seeing Lyme disease prevention messaging, what steps did you take to protect yourself?
(Select all that apply)

- ☐ Used insect repellent (1)
- ☐ Wore protective clothing (2)
- ☐ Checked myself for ticks (3)
- ☐ Avoid tick habitats (4)
- ☐ Other - specify (5) _____
- ☐ ☒ I did not take any steps to protect myself (6)
- ☐ ☒ Don't know/not sure (7)

Which of the following information would you find most useful in preventing tick bites in the future?

- ☐ How to properly remove ticks (1)
- ☐ Safety and appropriate use of insect repellents (2)
- ☐ How to decrease ticks in my yard (3)
- ☐ Don't know/not sure (4)

Next, I'd like to ask you a few questions about your travel habits. Do you primarily travel for business or leisure?

- ☐ Leisure (1)
 - ☐ Business (2)
 - ☐ About equal amount (3)
 - ☐ Don't travel (4)
-

Had you booked or planned to take a trip by air before the COVID-19 pandemic?

- ☐ Yes, had booked a trip (1)
 - ☐ Yes, had planned a trip, but had not booked it (2)
 - ☐ No (3)
-

When was your next trip scheduled to take place?

- ☐ In March (1)
 - ☐ In April (2)
 - ☐ In May or June (3)
 - ☐ In July, August, or September (4)
 - ☐ Beyond September (5)
-

Was this trip for business or leisure?

- ☐ Business (1)
- ☐ Leisure (2)

The COVID-19 situation has prompted many people to use technology for telecommunication rather than to travel. How likely are you to substitute technology for air travel trips in the future?

- ☐ Extremely unlikely (1)
- ☐ Unlikely (2)
- ☐ Somewhat likely (3)
- ☐ Likely (4)
- ☐ Extremely likely (5)
- ☐ Don't know/Not sure (6)

Does what you know about community-spread of viruses make you more likely to use smaller less-crowded airports or larger more-crowded airports when scheduling a trip by air in the future?

- ☐ More likely to use smaller airports (1)
- ☐ More likely to use larger airports (2)
- ☐ Makes no difference in my airport choice (3)
- ☐ Don't know/Not sure (4)

How likely are you to consider scheduling a trip by air in the following timeframes?

	Extremely unlikely (Unlikely (20-40% chance) (2)	Somewhat unlikely (40-50% chance) (6)	Somewhat likely (50- 60% chance) (3)	Likely (60- 80% chance) (4)	Extremely likely (>80% chance) (5)
Within 1 month	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
In 1-3 months	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
In 3-6 months	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
In 6-9 months	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
In 9-12 months	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
In more than 1 year	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Which best describes the reason that you are unlikely to schedule a trip by air?

- ☐ I am unlikely to schedule a trip due to concerns about COVID-19 (1)
- ☐ I am unlikely to schedule a trip because I had no upcoming travel plans, even prior to COVID-19 (2)
- ☐ Don't know/Not sure (3)

What is the zip code of your primary residence?

Do you own or rent your home?

- ☐ Own (1)
- ☐ Rent (2)
- ☐ Other (3)

Are you currently married, widowed, divorced, separated, or have you never been married?

- ☐ Married (1)
 - ☐ Widowed (2)
 - ☐ Divorced (3)
 - ☐ Separated (4)
 - ☐ Never married (5)
 - ☐ Living together (6)
-

Which of the following best describes your gender?

- ☐ Woman (1)
- ☐ Man (2)
- ☐ Transgender (3)
- ☐ Gender Non-conforming/other (4)
- ☐ Prefer not to say (5)

Which of the following ethnic or racial groups do you identify with? (Please select all that apply)

- ☐ Native American, Inuit, or Aleut (1)
- ☐ Asian American/Pacific Islander (2)
- ☐ African American/Black/Caribbean American (3)
- ☐ Caucasian/White (4)
- ☐ Latin/Hispanic (5)
- ☐ Other - Specify (97) _____
- ☐ ☒ Prefer not to say (99)

Do you or does anyone in your household own a gun?

- ☐ Yes (1)
- ☐ No (2)
- ☐ Don't know/Not sure (98)
-

What is the highest grade in school or level of education that you've completed and got credit for?

- ☐ Eighth grade or less (1)
- ☐ Some high school (2)
- ☐ High school graduate (includes G.E.D.) (3)
- ☐ Technical school (4)
- ☐ Some college (5)
- ☐ College graduate (6)
- ☐ Postgraduate work (7)
- ☐ Don't know/Not sure (98)

Do you subscribe to or regularly read the following media sources?

(Please select all that apply)

- ☐ The Union Leader or the New Hampshire Sunday News (1)
 - ☐ The Boston Globe (2)
 - ☐ A local daily newspaper, such as the Concord Monitor or the Nashua Telegraph (3)
 - ☒ None of the above (4)
-

How often, if ever, do you watch WMUR, Channel 9 News?

- ☐ Everyday (1)
 - ☐ Several times a week (2)
 - ☐ Occasionally (3)
 - ☐ Never (4)
 - ☐ Don't know/Not sure (98)
-

How often, if ever, do you watch Fox News?

- ☐ Everyday (1)
- ☐ Several times a week (2)
- ☐ Occasionally (3)
- ☐ Never (4)
- ☐ Don't know/Not sure (98)

How often, if ever, do you listen to New Hampshire Public Radio?

- ☐ Everyday (1)
 - ☐ Several times a week (2)
 - ☐ Occasionally (3)
 - ☐ Never (4)
 - ☐ Don't know/Not sure (98)
-

How often, if ever, do you listen to conservative talk radio, like Rush Limbaugh or Sean Hannity?

- ☐ Everyday (1)
- ☐ Several times a week (2)
- ☐ Occasionally (3)
- ☐ Never (4)
- ☐ Don't know/Not sure (98)

Which of the following statements best describes your news consumption?

- ☐ I seek out news sources that generally align with my views (1)
- ☐ I seek out news sources that both align and don't align with my views (2)

- ☐ More than once a week (1)
- ☐ Once a week (2)
- ☐ Once or twice a month (3)
- ☐ A few times a year (4)
- ☐ Never (5)
- ☐ Don't know/Not sure (6)

And what is your current age?

(Please enter a number only)

How many years have you lived in the State of New Hampshire?

(Please enter a number only, 1 year or less enter 1)

Have you always lived in New Hampshire or did you move here from another state?

- ☐ Always lived in NH (1)
- ☐ Moved here from another state (2)

What state did you move here from?

▼ Alabama (1) ... Don't know/Not sure (55)

What year did you move to New Hampshire?

(Please enter a number only)

How many of the persons who currently live in your household are under 18 years of age, including babies and small children?

- ☐ None (1)
- ☐ One (2)
- ☐ Two (3)
- ☐ Three (4)
- ☐ Four (5)
- ☐ Five (6)
- ☐ Six (7)
- ☐ Seven or more (8)
- ☐ Don't know/Not sure (98)

Including yourself, how many adults currently live in your household?

- ☐ One (1)
- ☐ Two (2)
- ☐ Three (3)
- ☐ Four (4)
- ☐ Five (5)
- ☐ Six (6)
- ☐ Seven or more (7)
- ☐ Don't know/Not sure (98)

Which of the following best describes your current employment status. Are you currently...

- ☐ Employed full-time (1)
 - ☐ Employed part-time (2)
 - ☐ Self-employed (3)
 - ☐ Retired and not working (4)
 - ☐ Unemployed and looking for work (5)
 - ☐ Homemaker (6)
 - ☐ Disabled (7)
 - ☐ Student (8)
 - ☐ Don't know/Not sure (98)
-

How much **total** income did you and your family receive in 2019, not just from wages or salaries but from **all** sources, that is, before taxes and other deductions were made?

- ☐ Less than \$15,000 (Less than \$1,250 per month) (1)
- ☐ \$15,000-\$29,999 (\$1,250-\$2,499 per month) (2)
- ☐ \$30,000-\$44,999 (\$2,500-\$3,749 per month) (3)
- ☐ \$45,000-\$59,999 (\$3,750-\$4,999 per month) (4)
- ☐ \$60,000-\$74,999 (\$5,000-\$6,249 per month) (5)
- ☐ \$75,000-\$99,999 (\$6,250-\$8,333 per month) (6)
- ☐ \$100,000-\$149,999 (\$8,334-\$12,499 per month) (7)
- ☐ \$150,000-\$199,999 (\$12,500-\$16,666 per month) (8)
- ☐ \$200,000 and over (\$16,667 and over per month) (9)
- ☐ Don't know/Not sure (98)
