

To the school funding commission,

Hi, my name is Ederlin, and I go to a Manchester High School. I come from the Dominican Republic, but now I live in Manchester, NH. Getting to the my high school is an experience, because when you come from another country, and you have to learn the language and its culture, it's a bit difficult. But, the teachers have helped me with everything I need. What I like about my school is that the teachers teach you well and help you find a way to learn better. You are also free to express yourself and give your opinion. But, there are things that need to be changed, like, improved internet connection, better food, more computers, books in different languages, and having more activities.

Here at my high school, we need more resources for the things we need to change. This school has to have the equality that other schools have. Example the Pinkerton Academy school and we deserve the same resources. For the Funding Commission I ask if they'll give money for the things we need to change education at my school.

*Thank you,
Ederlin*
