Discussion

Public Engagement Overview Discussion

- What do we need to share in the report?
 - What are key findings and core principles to share?
 - What recommendations will we make?
 - What questions may/should persist in future engagement efforts for guiding policy decision-making and implementation?
- Notes
 - Summary reports for youth, municipal and school leader reprise, and educator survey will be available for review without formal presentation in early November.
 - The goal is to review this crosswalk and recall what we have heard from the public during commenting sessions to determine key themes and points, notable unique considerations, and then form principles and recommendations for a final report.

- Final Task Review – Comments about Next Steps and Tasks: We need to discuss the best method for our group to draft our portion of the report – DRAFT is due 11/9 – less than two weeks away.
- Discussion of Public Outreach – Start a list of who will benefit from a presentation
