

To the school funding commission,

Hi! My name is Helene I come from Burundi but now I am in America. I grew up going to school for most of my life in my country. Now, I need more education, a school bus to get to school and I need more books. I want more classes and resources in school like strong internet. I need more teachers so that my high school in Manchester can look like the school it was in the past.

I wish all the best, thank you.

Helene
