To the school funding commission,

Hi, my name is Paul and I go to a Manchester high school.

It was 2010 when I started school in my country. I was very scared to go to school I didn't like to go to school because when I was too young. I was hearing many people when them left at school them started talking about what the teacher beating them and that's why I was hated school in my country. I tried to listen to what the teacher was saying in my class, but I didn't like to go to school every day because I knew the teacher was going to beat us. But when I didn't go to school I was feeling bad because I was not intelligent. Then, I focused on going to school and I keep go everyday. I was the first one for every class. I was to happy but I still didn't like to go at school. Then, I came to United States . I was so happy to come in United States and when I was here I wanted to go to school right away, but it was at summer. Then I hated summer because I wanted to be in school.

Then finally I started school and I meet my English teacher. She is a good teacher and I was love her because she was saying everything slowly. She also helps me to understand what people are saying in English.

I thank teachers like her. Now I have many teachers. Other teachers are teaching me very well. Now I understand English, but not much. I will keep coming to school every day because it's so peaceful to learn here. I want to ask the commission to give more funding for good teachers in my school. I want all students in my school to have more good teachers.

Thank you,

Paul
